

PERSONAL INFORMATION

Pinto-Correia, Teresa

 University of Évora
 ICAAM, Institute for Mediterranean Agrarian and Environmental Sciences
 Polo da Mitra, Apartado 54
 7006-554 Évora Portugal
 00 351 266 745 800
 mtpc@uevora.pt

Sex Fem | Date of birth 10/09/1962 | Nationality Portuguese

WORK EXPERIENCE

- From 1st April 2012 **Director of ICAAM (Institute for Mediterranean Agrarian and Environmental Sciences)**
 ICAAM (Institute for Mediterranean Agrarian and Environmental Sciences), University of Évora
- May 2007-March 2012 **Coordinator of the Research Group on Mediterranean Ecosystems and Landscapes**
 ICAAM (Institute for Mediterranean Agrarian and Environmental Sciences), University of Évora
- Sept.2002-Nov.2005 **Head of Department**
 Dept. of Landscape and Biophysical Planning, Univ. Évora
- Since Jan.1999 **Associate Professor**
 University of Évora, Portugal
- Oct.1996 – Dec.1998 **Associate Professor**
 University Atlântica, Lisbon, Portugal
- Jan.1994-Oct.1996 **Research fellow, landscape ecology and planning**
 Department of Development and Planning, Aalborg University, Denmark
- Oct.1984-Oct.1985 **D.G.P.U.**
 Portuguese Public Department for Urban and Regional Planning , Lisbon, Portugal

EDUCATION AND TRAINING

- 2008 **Agregação” (Habilitation), University of Évora**
- 1993 **PhD at the Institute of Geography, University of Copenhagen, Denmark**
- 1988 **Masters with the European Diplom in Environmental Sciences, Specialisation on Environmental Planning, Belgium**
- 1984 **Graduation in Geography at the Universidade Clássica de Lisboa, Portugal**

Expertise Analysis of rural landscapes transformation: causes and consequences. Classification and typologies of rural landscapes, at different scales. Analysis of management and planning instruments for rural landscapes management, and integration of various stakeholders. Decision making at different scales. Case studies: landscape level analysis, land cover and land use, farming systems, through cartographic analysis and interviews to managers and users of the landscape. Food systems at the landscape level

Current research interests Management of rural landscapes. Provision of public goods: assessment at the landscape level and assessment of policy instruments. Analysis of the rural space processes and dynamics. Farm systems and farm transition processes . Land owners decision making and the interplay of different actors.

Analysis of food systems at the landscape level. Policy analysis: design and application of policy strategies and policy instruments.

Other areas of competence / activities

Landscape character assessment, at various scales. Analysis of landscape and landscape change through landscape metrics. Landscape preferences.
